The Ancient Order of Forresters, which is one of the oldest established orders in the world, organized at Knaresborough Castle, England, on the 29th day of October, 1745, and at the present time there is scarcely a town or hamlet in the United States that has not a Court of this Order withia its confines. As there are several members of the Order to this city, and plenty of material for an organization in Tomostone, a pretiminary meeting was held last evening at the office of Dr. Willis, at which were present twelve of our citizens, who canvassed the matter of forming a Court in this city, and as the outlook for its formation is good, another meeting, at which steps will be taken for the formation of a Court of Forresters in Tomostone, has been called for next Wednesday evening at Dr. Willis office, when all who are eligible to membership ere cordially invited to attend. All those who desire information in regards to this order and its objects can learn the same by calling upon Mr. H. A. Parker, at Gregory's restaurant, on Fremont street.
